

What are the responsibilities of a Team Manager?

As a Team Manager you should plan on:

- Communicate with campus QUEST teacher to go over logistics, receive materials, etc...
- Facilitate weekly team practices to guide the team to tournament. ***May consider more frequent meetings when you get very close to tournament date.
- Attend Team Manager basic/advanced training (check the Heart of Texas website <http://hearttx.txdi.org/home> for info and dates about trainings).
- Study the DI Program materials when you receive them. While it is not up to you to solve the challenges, it is up to you to make sure the team understands the rules of the program and of the challenge they are working to solve.
- Possibly giving up at least part of your garage for storage of props the team is working on, or possibly store at school wherever team meets.
- Help campus QUEST teacher with recruiting appraisers to represent your team.
- *It is a REQUIREMENT to participate in the Regional Tournament, and that a team has 2 appraisers representing them.* Appraisers must attend a 1/2 day training (typically the end of January/early February) and work the (full day) the end of February or the beginning of March.
- Attend Team Manager forms training (February)
- Consider going to optional Team Mgr. Instant Challenge trainings (see website)
- Collect T-Shirt orders from your team and submitting them online (texasdi.org) by the registration deadline.
- Keep up with team challenge clarifications that may be published from time to time by Destination Imagination Inc.
