

txConnect

The parent portal application, txConnect, provides parents and guardians Web access to school related information about their students including grades, assignments, STAAR (and TAKS) results, immunizations, attendance and discipline. It works in conjunction with txGradebook, the teacher's grade book. Parents can access txConnect from anywhere with an Internet connection.

The txConnect application consists of the following:

- Registration and Login
- Student Summary
- Attendance
- Grades
- Assignments
- Discipline
- Immunizations
- STAAR (and TAKS) results
- Alerts Subscription
- My Account
- Online Student Registration

How to Display Help

On any page in txConnect, the parent can display Help for a page by clicking Help in the upper right corner of the page. The Help topic opens for the page displayed.

How to Display a Page in an Other Language

The parent can change the language in which a page is displayed by clicking the language from the list of available languages at the bottom of the page. The list is available on all pages, so the language can be changed on any page.

- Some information may not be translated to other languages if the campus or district has not created a translated version.
- The parent's language setting is saved until he changes to another language.
- If the browser uses *persistent cookies*, and/or if the default language has been set for the browser to a preferred language, the language setting is saved so the parent does not need to change the language every time he visits txConnect. Otherwise, the parent must change the language every time he visits txConnect.

System Requirements and Browser Setting

For information about system requirements and recommended browser settings, see the System Requirements page found on the Contents tab of the txConnect online Help system.
