

Vision

Students will exit our system with the same passion for learning they had when they entered, without economics determining success.

Every Option Open.

Our Challenge

In order to accomplish this vision, we must:

- Give students ownership in their learning, with the Seven Student Learning Behaviors anchoring every classroom.
- Close the achievement gap.
- Ensure students exit our system college and career ready.
- Focus on the whole student, ensuring that every student is healthy, safe, engaged, supported and challenged.
