If your child has been identified as having a disability and has special dietary needs, changes can be made to your child’s school breakfast and/or lunch at no extra charge with the proper documentation from a physician.

Is your child eligible?

Your child is eligible if he or she has been identified as having a disability under Section 504 of the Rehabilitation Act of 1973, or under Part B of the Individuals with Disabilities Education Act (IDEA) and has special dietary needs. USDA regulations (7 CFR Part 15b) require substitutions or modifications in school meals for children whose disabilities restrict their diets.

Some examples of special dietary needs that are considered disabilities:

- Celiac disease
- Diabetes
- Food allergies that result in severe, life threatening (anaphylactic) reaction
- PKU

**Section 504 of the Rehabilitation Act of 1973**

Under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) of 1990, a “person with a disability” means any person who has a physical or mental impairment which substantially limits one or more major life activities, has a record of such impairment, or is regarded as having such impairment. A **major life activity** is defined as caring for one’s self, eating, doing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working. The term “physical or mental impairment” includes many diseases and conditions.

**Part B of the Individuals with Disabilities Education Act (IDEA)**

The term child with a “disability” under Part B of the Individuals with Disabilities Education Act (IDEA) means a child evaluated in accordance with IDEA as having one or more of the recognized disability categories and who, by reason thereof, needs special education and related services.

What types of meal modifications can be made?

Possible modifications include but are not limited to:

- Food restrictions (milk and milk products, gluten, eggs, etc.)
- Increased calories
- Texture changes (pureed, ground, chopped, thickened liquids, etc.)
- Tube feeding
- Weight management (calorie-controlled)
**What documentation is needed?**

**Special Diet Form** will need completed for special dietary requests. This form can be found on the Leander ISD CNS website or requested from your school foodservice director.

OR

Submit a **physician’s statement** signed by a licensed physician (MD or OD).

The **Special Diet Form** or the **physician’s statement** must identify:
- The child’s disability;
- An explanation of why the disability restricts the child’s diet;
- The major life activity affected by the disability;
- The food(s) to be omitted from the child’s diet and the food or choice of foods that must be substituted;

**What the school foodservice department will provide:**

The school foodservice department will accommodate all substitutions or modifications as identified by a licensed physician in the **Special Diet Form** or a **physician’s statement**. The following are examples of what the school will provide:
- Dietary supplements (tube feeding formulas & other nutritional formulas)
- Substitution foods (gluten free, low protein, etc.)
- Foodservice staff will be trained on optimum handling of special diet modifications.
- Communication between foodservice department, school nurse, registered dietitian, physician and parent or guardian regarding your child’s school meals.

**What if my child has special dietary needs, but not a disability?**

**Schools are not required to make modifications to meals for students with special dietary needs that are not considered a disability.** This includes modifications based on food choices of a family or child regarding a healthful diet. This provision covers those children who have food intolerances or allergies but do not have life-threatening reactions (anaphylactic reactions) when exposed to the food(s) to which they are allergic.

**Children without disabilities, but with special dietary needs requiring food substitutions or modifications, may request that the school food service meet their special nutrition needs. However, it is up to the individual school and/or school district as to whether requests are accommodated.**

**Have more questions on special dietary needs?**

Contact the Leander ISD Child Nutrition Department to speak with a Registered Dietitian:

1900 Cougar Country
Cedar Park, TX 78613
Phone: (512) 570-0677
Fax: (512) 570-0699

**MEDICAL INFORMATION**

Per the United States Department of Agriculture, a person with a disability is any such person who has an impairment that substantially limits one or more life activities. By definition this includes but is not limited to diabetes, PKU, celiac disease, food anaphylaxis, learning disabilities, and etc.

**THIS SECTION MUST BE COMPLETED BY A LICENSED PHYSICIAN ONLY.**

Patient Diagnosis/Medical Condition: ___________________________________________________________

Is patient diagnosis considered a disability? _____ YES _____ NO (DR. INITIAL ONLY)

If yes, please describe major life activities affected in relation to dietary modification: ________________________________

Texture Modification: Ground  Chopped  Pureed  Other (please be specific): ________________________________

Tube Feeding: Formula Name: __________________ Instructions: __________________ Oral? _____ YES _____ NO

Nutrient Modification: Increase Calories ________ Decrease Calories ________ Nutrient Restriction ________

Omit Foods: ____________________________________ Substitute with: ________________________________

Does patient have a life threatening food allergy? _____ YES _____ NO (DR. INITIAL ONLY)

Food Allergies (circle all that apply):

- Fluid Milk
- All Dairy Products
- Soy
- Eggs
- All Products With Eggs
- Wheat
- Gluten
- Corn
- All Corn Additives
- Seafood
- Peanuts
- All Nuts
- All Foods Produced in Facility With Nut Products

Can patient consume allergen as an ingredient in food product? _____ YES _____ NO (DR. INITIAL ONLY)

If medication is required, please complete a Food Allergy Action Plan.
