Leander ISD
Board Response

At the October 29, 2026 regular meeting of the Leander ISD Board of Trustees, Trustees requested additional data from PASA. Included herein are the requested pieces of data.

Inside this Board Response:

Historical Birth Trends by ZIP Code p. 2

The Board member asked for clarification on the recent increase in births to mothers living in LISD boundaries. They sought clarification on more specific geographic distribution of historical birth trends.

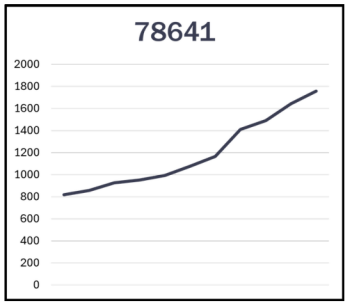

How Many EE–5th Grade Students Live in Each Elementary Attendance Zone?

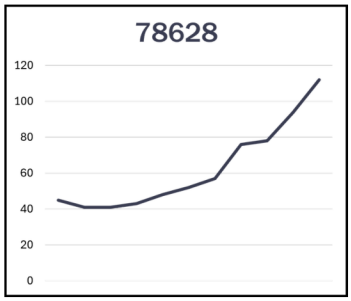

- **Data Table** p. 3
- **Map** p. 4
- **What-If Scenario Maps** pp. 5-6

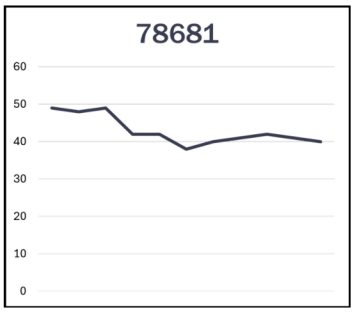

The Board member asked for data showing how many students live within each attendance zone, regardless of where they attend school. In other words, what is the total "pool" of children living in LISD? Note that this data includes counts of students living in LISD who currently attend LISD, charter schools, virtual schools, or other ISDs. This data does not include students living in LISD who currently attend private schools or homeschool.

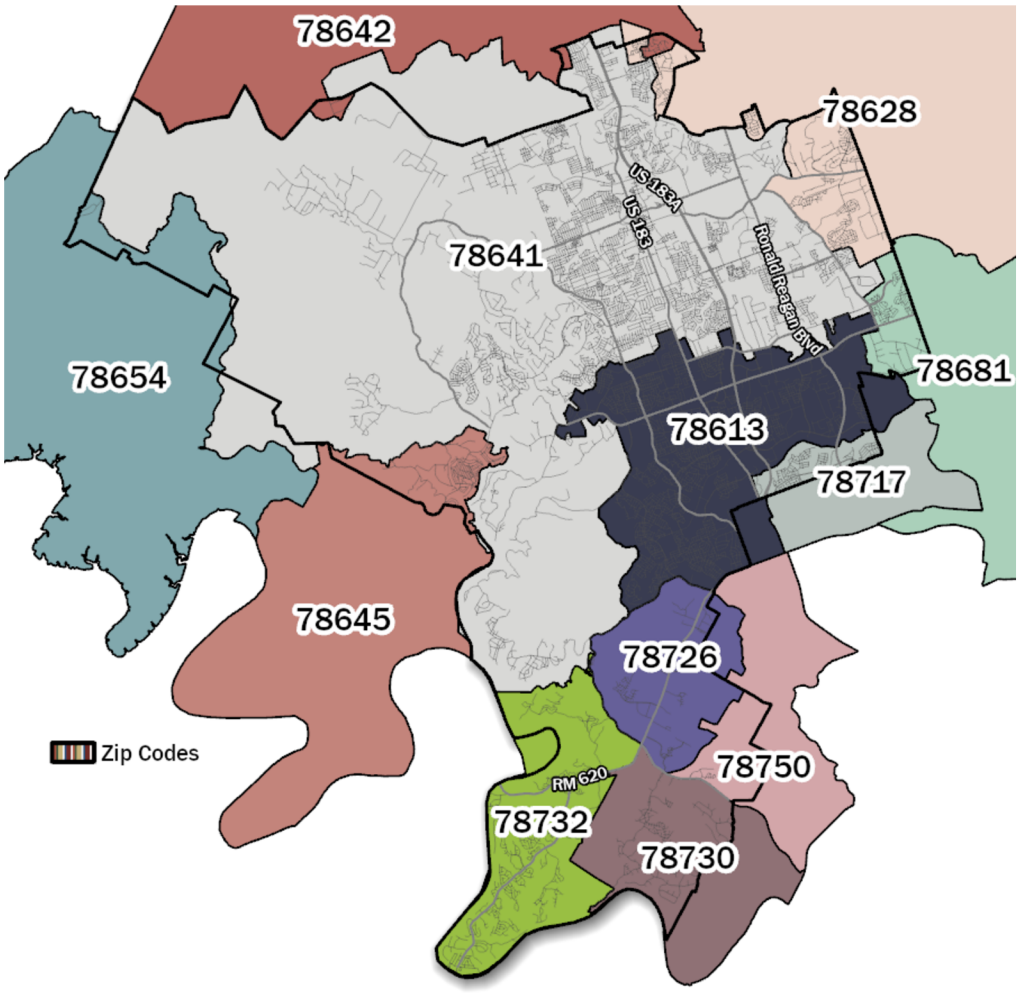

The What-If Scenario maps illustrate how fully each campus could be utilized if 1) no students attended other LISD campuses, and 2) no students attended charter schools, virtual schools, or other ISDs.
